'ROUND 'N' 'ROUND

They may talk about the women and how they tear down a store to buy a spool of thread to be wrapped up and delivered, but some men are just as bad.

Yesterday we had occasion to buy some new ties. While making our purchase in comes some man who decides that he must have a tie.

For half an hour he paced back and forth taking the ties in hand and holding them to the light, remarking about their quality and price.

Finally, after he had exhausted the stock of ties, he bought himself a pair of cheap socks.

People are like that.

Speaking of neckties, there's a certain young woman in the business office who is going to receive a poison doughnut from yours truly if any more remarks are made about our taste in neckties.

And harsh words will be exchanged if she persists in making remarks about why we purchase the said ties.

Let this be a warning. We hope we shall not have to bring this subject up again.

Well, one of our utility companies has found its fling at its favorite outdoor sport—tearing up the streets.

As a result when one drives west on Macdonald avenue between the subway and Fourteenth street it reminds one of driving over a rocky road.

Yes, there ought to be a law against it.

Now that baseball season is with us again they are digging up those old, moth-eaten alleged baseball jokes.

The worst one was repeated in a certain weekly magazine recently.

The story tells of a lout from the sticks who went to school. As a result he couldn't read the menu at the hotels where the team stayed while traveling.

He solved the problem by sitting next to the biggest eater on the team. He'd pick up the menu, pretend he was reading it and then carelessly say: "Give me the same as he got."

One day his dinner partner went on a diet and ordered two soft boiled eggs and a piece of toast. The player, as usual, said: "Gimme the same."

After he had seen what he had ordered, he shifted eating partners.

The new partner got wise to the player's little stunt, so he'd eat a good meal in his room and then at the dinner table would order a glass of milk.

The story has it that the player starved to death.

And just between friends, we hope that the man who invented that yarn did the very same thing.

High Journalism Talk Postponed

The talk to be given on journalism by Thomas P. Brown, director of the public relations department of the Western Pacific railroad company, yesterday, before journalism students at Richmond union high school was postponed. Brown is expected to speak in the near future, before the journalism class at the local high school.

Brown is a former newspaperman. He was also campaign manager in the Harding presidential campaign.

3 PROBES IN ACCIDENT OPENS

ALBUQUERQUE, N. M. April 11. — (UP) — A speeding passenger train on the Santa Fe railroad demolished a huge Pickwick Greyhound bus near here today in one of the nation's worst crossing accidents.

Not a single one of the 28 occupants of the bus escaped death or injury.

Wreckage of the bus caught on fire immediately after the crash, adding to the horror of the disaster.

Nineteen persons were killed outright or died within a short time.

Nine Hurt.

Nine others were injured, several of them in a critical condition tonight in Albuquerque hospitals.

Bodies of the dead were brought to morgues here, where identification was slow because of their mangled and charred condition. Baggage and personal belongings which might have aided in establishing identities were consumed in the flames which enveloped the shattered bus before rescuers could approach it.

No Records.

The big bus left Los Angeles at midnight on the transcontinental run, and records of the passenger list were not available here.

As the bus neared the Santa Fe crossing at Pueblo Isleta, 12 miles south of Albuquerque, the

MANY ENJOY SCHOOL PLAY

Another successful school play was presented by the Richmond Union High School Students' association last night in the school theater.

The local school has always had a reputation for presenting some of the finest amateur dramas in the bay region, and the presentation of "Daddies" last night maintains the high standard set by the local school.

The presentation was a comedy. Comedy-drama seems to lend itself to a better interpretation by amateur actors, especially high school stage players.

A good story, coupled with a well drilled cast united in making a play that literally brought down the house. Members of the cast and Miss Branch Carson and Miss Dorothy Cox, directors of the presentation, were highly lauded by the huge audience for their work.

Every member of the cast played his or her role like veterans, taking their part in a wholly professional manner.

Another feature that added to the entertainment was the music presented by the Richmond Union high school orchestra, directed by George Morris.

Blessed with an unusual number of good musicians, the orchestra did justice to some of the famous classics.

The members of the cast, who were so highly lauded for their good work, were Darrow Sutton, Joe Dudzik, Albert Shultz, George Miller, Walter Thomas, Marjorie Woods, Elva Plouff, Laura McKune, Nellie McCauley, Olga Mahomed, Christine Coleman, George Pirio, William McClosky, Alice Traverso, Roderick MacLennan, Gertrude Parker and Carl Angeli.

Harry Tezzi and Miss Bernice Whiting were the stage directors.

Truck Collides With Street Car

No one was injured and slight damage was done when a truck collided with a street car at Twenty-third street and Macdonald avenue last night.

According to police reports, a truck driven by Victor Ferrario, 44 Seventeenth street was turning the corner when it struck a Key System car, in charge of Joe Smelling, 629 Twentieth street, motorman and conductor.

VETERAN HALLS COST COUNTY \$289,411.71

Since 1922 the county has expended \$289,411.71 for memorial halls in this county, according to a report made yesterday by the Contra Costa county unit of the California Taxpayers' association. The total cost of the various buildings, includes those at Bay Point and Concord that were just completed.

The costs of the various halls were tabulated as follows: Home sites purchased for veterans, soldiers, sailors and marines \$32,351.41; buildings and furnishings, veterans, soldiers, sailors and marines homes \$20,906.59; inspectors, Legion halls \$8,167.99; Richmond Memorial hall \$61,286.89; Walnut Creek Memorial hall, \$17,082.65; Antioch Memorial hall, \$12,808.15; Brentwood Memorial hall \$9,753.15; Crockett Memorial hall \$20,143.42; Danville Memorial hall, \$17,352.01; Martinez Memorial hall, \$23,710.66; Pittsburg Memorial hall, \$22,084.75; Memorial Monument \$1,209.47; Bay Point Memorial hall, \$19,947.55; Concord Memorial hall, \$22,549.02.

Movies Prove Womans Undoing

OAKLAND, April 11. (UP) — Mrs. Mary Sylvester rejoiced at the chance to have motion pictures taken by two affable strangers. She was astonished today when the movies were presented with a court motion for a new trial filed by a firm which recently paid her \$10,000 damages for "permanent" injuries which she suffered when struck by a falling cornice.

HOOVER SAYS NAVY MEET SUCCESS

WASHINGTON, April 11. — (UP) — President Hoover today announced that abolition of naval competitive construction among the greatest naval powers and the prospective saving of \$2,500,000,000 to the United States, Great Britain and Japan has been achieved by the London naval conference.

Final abolition of naval competition with its attendant fears, suspicions and international friction, Hoover said, was the most vital contribution to peace of the conference.

Hoover said the United States would be required to spend within the next six years between \$550,000,000 and \$650,000,000 to attain parity with Great Britain on terms to be agreed to next week in London. To have reached parity with Great Britain on the basis of the 1927 Geneva conference tonnage figures, he continued, would have cost the United States between \$1,400,000,000 and \$1,600,000,000.

Save Money

Upon this basis the President estimated the London conference would save the United States the expenditure of \$1,900,000,000 while the aggregate saving to the three treaty powers, Great Britain, Japan and the United States would be \$2,500,000,000.

Hoover's analysis of the conference result was made public in a formal statement at the White House today. It was emphasized that the forthcoming treaty would contain no political undertaking except an agreement for humanizing submarine warfare.

With the three long months of negotiations ended, Hoover revealed he had considered a five-power agreement, including France and Italy improbable from the first because of the inter-relationship of European land and sea armaments and the necessity of engaging in political agreements to (Continued on Page 8)

Steel Merger Gets Approval

YOUNGSTOWN, O., April 11. — UP — Ratification of the billion dollar merger of the Youngstown Sheet and Tube company with Bethlehem Steel corporation by stockholders of the Youngstown company, was announced today.

The vote was 557,821 for and 341,791 against.
Vote on the consolidation, which will make the Bethlehem company the second largest only to United States Steel corporation, was taken Tuesday night but the result was held up pending court action on 88,973 contested proxies, sufficient to swing the vote either way.
The last legal bar was removed today when Common Pleas Judge C. F. Turnbaugh dissolved a temporary injunction against counting the contested proxies in favor of unification.

Berman Faces Forgery Charge

LOS ANGELES, April 11. — UP — An old indictment which was first used in 1923 to extradite Jacob Berman from Europe, when he fled after the crash of the Julian Petroleum corporation was unexpectedly brought into service by Superior Judge Marshall McComb today to have the promoter arrested on charges of forgery and embezzlement.

Berman was strolling about the hall of justice corridors when taken into custody on the indictment which had been taken off calendar by his former District Attorney Asa Keyes and District Attorney Byron Pitts.

Judge McComb recently was replaced as judge in Julian bribery cases, in which Berman is a defendant, because Berman would not give grand jury testimony concerning the Julian crash. He had to go to trial in his own defense. Berman was placed in the county jail under \$250,000 bail.

STUDENT RUM PARTY BARED IN PROBE

WOMAN HELD AS LIQUOR SELLER

SANTA ROSA, April 11. — UP — Details of a "wild party" among high school and junior college students last Wednesday night were bared today when a warrant was issued for a woman alleged to have sold liquor to one of the participants.

After two days of quiet investigation local authorities issued a warrant charging Ida Tuccetti, 27, an employee of a Santa Rosa hotel, with contributing to the delinquency of a minor.

Officers served the warrant late today.

Girl Held

Meanwhile, one 15 year old girl was held at the juvenile detention home. The girl, whose name was withheld by authorities, as were the names of other participants in the affair, was said to have allowed the "party" to be held at her home, in the residence district.

The investigation started when neighbors in the vicinity of the girl's house, notified police that a party was in progress nearby, and that the hilarious attendants were disturbing the peace by crashing milk bottles, yelling, and otherwise creating disturbances.

Officers who responded to the call said that there was evidence of drinking.

College Students

All those at the party were students of the Santa Rosa high school, Santa Rosa Junior high and Santa Rosa Junior College, police said.

After questioning, one boy admitted purchasing liquor, and volunteered to show officers where he had purchased it. Issuance of the warrant followed.

The hotel where the liquor was purchased was arided by Federal officers last Saturday night, it was said.

Jury Indicts Secret Lover

LOS ANGELES, April 11. — UP — Otto Sanhuber, who lived a strange life secluded in the home of the married woman he loved, was indicted by the county grand jury today on a charge of having crept from his attic retreat one night and murdered the woman's husband.

The indictment accusing him of shooting to death Fred Oesterreich, wealthy furniture manufacturer and husband of Walburga Oesterreich, his purported sweetheart, was brought after several hours of testimony.

Earlier in the day Sanhuber had repudiated his confession, but C. F. Turnbaugh dissolved a temporary injunction against counting the contested proxies in favor of unification.

Sanhuber's first affidavit told how he met Mrs. Oesterreich in Milwaukee and that her husband ordered him never to see her again. So he followed the couple to Los Angeles and lived like a ghost in the attic of their home, unknown to the husband.

Freed Mining Man Returned

MAZATLAN, Sinaloa, Mexico, April 11. — UP — J. E. Bristow, American mining man, arrived here today after a month in the hands of Mexican bandits.

He was accompanied by his son, Oble Bristow and the American vice counsel E. W. Eaton, who negotiated with the bandits for his release in the desolate Nayarit mountainous region.

The arrival here from Tepic by train was interrupted by another experience, presumably a result of denigrations by other nations.

HEAT WAVE IN MIDWEST PERILS CROP

CHICAGO, April 11. — Unprecedented heat broiled the entire midwest today in a simmering cauldron of suffering and financial loss.

For the second day, thermometers boiled up over the 90 mark to wreak pain and damage in the city and country alike. In tenement districts of the area's cities inhabitants sweated under a beating sun, which seldom gets any hotter, even in mid-summer. Authorities said they were surprised that the number of heat prostrations reported were so few.

In the great wheat and corn regions of Kansas, Nebraska, Iowa, Missouri and Oklahoma, the damage to crops was reported to be mounting at the rate of \$1,000,000 a day. Hot dry winds whipped tender shoots from the ground and sifted smothering dust over the wilted sprouts.

Unless rain comes by tomorrow an all-time record for April dryness will be established in Oklahoma.

Many fields, brilliantly green a few days ago, were beginning to turn yellow as the parching sun continued to suck from the ground what little moisture was left from the heavy winter snows. Denver, with temperatures in the seventies, apparently was the western boundary of the record-breaking heat wave. Eastward in Des Moines, St. Louis, Kansas City, Chicago and Indianapolis, it was 90 and even higher before the last blistering rays of the sun disappeared behind a bank of haze which weather bureaus predicted might mean relief in the form of rain by tomorrow.

After a high of 90.2 degrees in Chicago, a sudden, freakish shift of the wind brought cool breezes off the lake, and temperatures in Chicago dropped 40 degrees in almost as many minutes.

The wind shift literally pulled the bottom out of the heat wave as far as Chicago was concerned.

MAN HURT

PORTLAND, Ore., April 11. — (UP) — H. G. Gaussen, district manager of the Rainier Brewing company was injured fatally here today when he drove his automobile head-on into a street car. The street car was not in motion at the time of the crash. Gaussen lived near Troutdale, Ore.

COMMITTEE OF CONGRESS RECOMMENDS PLAN TO COMPLETE CHANNELS

Richmond's harbors, both inner and outer, will be completed under a recommendation of the Chief of Engineers made in May, 1928, if a recommendation made to congress by the committee on rivers and harbors is carried out.

According to a wire received yesterday by the RECORD-HERALD from Congressman C. F. Curry of this district, a modification of the plans as submitted have been recommended for adoption.

If finally adopted by congress and signed by the President, the measure will provide for the completion of both the inner and outer harbor of Richmond as called for in the last official U. S. survey.

W. H. PARKER RESIGNS

OAKLAND, April 11. — UP — In a surprise move today, William H. Parker, terminated his trial on an accusation charging misconduct in office, by resigning from his position as street commissioner.

The resignation voids the accusation, but the former commissioner is still under indictment for conspiracy and bribery.

Parker's resignation was unexpected for he had not immediately followed the precedent set by two other commissioners, Eugene Sturges and C. C. Young, who resigned at the opening session of the trial and had acted as his own attorney, in the absence of counsel.

He stated today that his reason for resigning was that he was unable to get another attorney on short notice, to replace Leo Sullivan, accused with the defense of three former deputy sheriffs and two asserted bootleggers in a conspiracy trial in another court, and he felt himself unable to adequately represent himself.

Judge Fred V. Wood postponed action on a dismissal of the accusation until Monday, although it is expected to automatically follow the resignation.

Plans Made For Vacation School

Plans for the Daily Vacation Bible school which will be held in Richmond from June 9 to June 27 were made last night at a meeting of the Richmond council of Religious Education.

Rev. A. A. Pratt, Rev. K. B. Wallace and L. A. Wadner were named members of a committee to make arrangements for the appointment of a dean of the school and the teachers.

It is being planned to hold a special school for foreign children. Another meeting of the council will be held in the near future.

Body Of Slain Man Discovered

LAS VEGAS, Nev., April 11. — UP — A murder believed to have been committed last December was under investigation here tonight after the trussed up body of a man was found near Hiko.

Officers were working on the theory that the victim might be Herbert Hulz, of Las Vegas, or Joseph Morlock, of Euclid, Ohio. The man's hands and feet had been trussed up behind his back and his body wrapped with a cloth. Apparently he had been strangled and a cap was stuffed in his mouth. The body had been covered with a piece of canvas and on top were placed four full sacks of cement.

12 PT to come... An expenditure of approximately \$624,000 is called for in the bill. Half of this is provided by the government while half must be supplied by the city of Richmond. According to City Manager J. A. McVitie, the full amount will probably not be necessary to complete the work as some of the work has already been done under special provisions.

In addition to dredging at both the outer and inner harbor, the project calls for a depth of 30 feet to be maintained by the U. S. government. This will relieve Richmond of from \$30,000 to \$40,000 per year in keeping the channels to the required depth.

Recommendations of the new project call for the dredging of a channel 400 feet wide and 30 feet deep leading to the outer harbor wharf. From the outer harbor wharf to Point Potrero a channel 300 feet wide and 30 feet deep is called for. A width of 570 feet at Point Potrero is called for. From Point Potrero to the northern end of the inner harbor, or Ellis landing, a channel 475 feet wide and 30 feet deep is to be dredged. At the end of this channel a turning basin 800 by 800 feet is to be established.

The training wall is to be extended for a distance of 200 feet. The project actually calls for 7000 feet but 5000 feet of this wall are now being constructed under special provisions.

STABBING OF YOUTH PROBED

MARTINEZ, April 11. — Sheriff's deputies today started an investigation into the mysterious stabbing of Verett D. Baker, 19, after the boys' mother had made a belated report of the affair to the authorities.

Baker said he was stabbed in the abdomen and slashed across the left hand Wednesday night at Estudillo and Ward streets by a man whom he believed was a foreigner. A report of the attack was not made until today.

The youth did not inform his parents about the affair until the next morning, when he became so weak that he had to be treated by a physician.

Blood stains were found at the point in the street where he said he was attacked.

The boy declared that he had left a skating rink at about 10 o'clock at night and at the street intersection a man walked across the street and stood near him.

The youth said the stranger suddenly whipped out a knife and stabbed him. He then fled.

THE WOMAN OF IT

By Marguerite Mooers Marshall

Just to Remember the Day

MEN are infinitely superior, physically, mentally and morally, to women. Men are in fact, practically perfect creatures. They always tell their wives the truth, the whole truth and nothing but the truth. They are painfully modest, utterly devoid of vanity. They are neat and orderly to a fault. Never forgetting to pick up and put away their belongings. They never fail to pay compliments, send flowers and say "I love you." They had much rather listen to a woman than talk themselves. They simply love giving money to their wives. When ill, men are only a little lower than the angels in disposition. They never drink too much, eat too much, smoke too much. They are intellectual giants, moral paragons, models of manly beauty. Women ought always to know their place, which is distinctly below that of men.

Women are all shallow, vain, idle, catty creatures—

Gold-diggers, who graft on men and do not earn their keep. You can't argue with a woman, because she has no sense of logic. And besides, she is as stubborn as a mule. Women ought not to go to college—it's a waste of time and money. Women with jobs ought always to be paid less than men. And no woman should be promoted to a position of real importance. Women are physical weaklings. Who weep copiously, frequently and deliberately. In order to get their way. Women are cruel to one another. They all are pretty playthings, dangerous temptations, noble inspirations. Combining the best features—oh, you know! All marriages are unsuccessful and unhappy. Romantic love is a snare and a delusion. Work is always dull, unprofitable, exhausting. Books are a bore. Even the ocean isn't worth a second glance. All of these truths we hold to be self-evident—**YES—WE DO! APRIL FOOL!**

WHAT PRICE ROMANCE?

THE WOMAN OF IT: In a little book of mine, "This Business of Being a Wife," which will be published one of these days, I have a poem which I'm going to quote: "A marriage that is based upon 'what he can give to me' is truly too cold-blooded—it can't last, as you will see."

A marriage that is founded on 'what I can do for him' will find much fairer sailing and its chances not so slim."

In a nutshell, that's the trouble with so many of these allegedly romance-saturated young women who write to you. The single girls are most of them out for "what he can give me," utterly overlooking "what I can do for him."

Marriage, like the giving of presents, is more fun when you give than when you take. Oh, it goes without saying that people are human and take advantage! But what of it? There isn't a girl in the world who wouldn't be happier, no matter how hard her job, if she had a pair of loving, sympathetic arms to come home to at night. What are they afraid of these single girls of thirty and upward? Why are they so afraid to give?

Suppose they do have to keep their job after they're married? Do they think they'd sit with their hands folded in their laps if they gave up the job and reared a family?

They infuriate me, these bachelor girls, even while I'm feeling so dreadfully sorry for their loneliness. Let them turn over a new leaf, say I, and forget their present queenly demands in looking for a husband. Let them be a bit humble, be willing to give. Let them think of the husband first, and of themselves second.

There's so little said for the poor men, bless them! I think a man's hero nowadays who dares to ask these modern queens to design to marry. They want an establishment, right off the reel, used to a salary of their own.

CA DISH CA DAY

By Karen Hollis

Copyright Press Publishing Company (New York World) 1930

Many a housewife has purchased the heavy copper cooking kettles which recently have been featured in the household shops. They are so decorative. They look so efficient. But what are they particularly good for, many a correspondent asks.

They have many uses. They are excellent for cooking green vegetables in a very small amount of water. They are admirably suited to any of the dishes which require long, slow cooking. They are ideal for stews, for ragouts, for simmering dried fruits, or for the cooking of corned beef or vegetable soups.

But, since they come from France, it is inevitable that they are associated with some native dish that frequently appears on their tables. And since French housewives glory in a reputation for combining their meat and vegetables in a savory ragout, it is not surprising that we find among their standard recipes one that is named a whole dinner in itself.

The exact ingredients of this ragout vary with the seasons. Always they start with beef, onion, potatoes and tomatoes. The added ingredients are limited only by what the provincial French housewife has in her garden or her cellar. Sometimes she adds corn and lima beans, sometimes mushrooms. At other times she is restricted to carrots and celery. But whatever the season and its offerings, the ragout is always delicious.

BEF JARDINIERE
2 pounds beef (preferably round steak)
4 tomatoes, or contents of No. 2 can

1 onion
1 tablespoon butter
1 tablespoon flour
4 potatoes (small)
4 carrots
1 cup lima beans (fresh or dried)
1 stalk celery
2 teaspoons salt
1/2 teaspoon pepper
1/2 teaspoon paprika

Cut the beef in strips about three inches long and an inch wide and sprinkle with the flour. Melt the butter and allow the onion to simmer in it for a few moments, until slightly brown. Then add the strips of meat and brown them on all sides. This should take about five minutes. Add two cups of water, cover the kettle, and cook for half an hour. While the meat is cooking the vegetables can be washed and prepared.

When the lima beans are used, they should be soaked for several hours previous to the cooking. Dice the carrots and potatoes, quarter the tomatoes and cut the celery in short sections. Add these to the meat, sprinkle with seasoning and cook in covered kettle for about half an hour more, or until vegetables and meat are very tender.

Occasionally, a French cook adds a whole clove to this ragout while it is cooking, or some cooked parsley. People who like their food highly seasoned add one-half cup of catsup or chili sauce or one of the many savory bouquet seasonings which can be bought, bottled, at any grocery.

Modernizing the Home

A Modern Foyer and Problem in Arrangement

By Alma Zaiss

A FOYER SUCH AS THIS MIGHT GIVE A PLEASANTLY MODERN INTRODUCTION TO MANY A CONVENTIONAL HOME.

Dear Miss Zaiss:
I would be much obliged if you will help a young woman in distress. I am about to furnish my first apartment (three rooms and a bath) but, not knowing a thing about furniture, color scheme, etc., I am at a loss to know what to get, although I do want modern furniture (not modernistic) for my living room. I do want an Oriental rug, love seat and things of that sort. I don't expect to buy a piano but will get a radio.

Also could you tell me about hangings for the living room and the type curtains and spreads for my bedroom? Also rug for bedroom. I should like modernistic things for my foyer. What would you suggest? (Mrs.) C. H. S.

PROBLEM NO. 1 Suggesting a Restrained Scheme Developed in the New Manner

Copyright Press Publishing Company (New York World) 1930

VERY frankly we confess that Mrs. C. H. S.'s letter has been treated through the paper merely because it gives us an opportunity to illustrate a charming modern foyer having several new features which could be used in a number of homes where other rooms are not definitely modernistic.

Also—Mrs. S. will be very much disappointed when she sees how little exact information can be given to fit her particular problem. She has enclosed no floor plan; gives no dimensions or description of her apartment. Once in a while such a letter is published to show readers the utter futility of expecting sound advice in response to such a meagre outline. And thereafter—for as much as two or three weeks—the correspondence shows marked improvement.

To give Mrs. S. the greatest number of ideas to help her judge good furniture and suitable styles when shopping, we have sent her the second World booklet, "Good Furniture—Old and New." Its thirty-two pages and eighteen illustrations will carry her through every room in the house, outlining good furniture types for period, conventional, and modern schemes. A study of the text will disclose the guiding principle that leads to the achievement of homelike rooms which are modern without

necessarily being modernistic. And Mrs. S. will also find illustrated a number of purely modern pieces which are restrained enough to be enduring and to be correct when combined with the mixed furnishings of the usual non-period home.

In general, of course, the furnishings of the foyer should suggest the character of the other rooms. But very interesting things are sometimes done in the modern manner for small apartment halls, where one may use an odd piece or two and a modern mirror without fear of conflicting with living and dining room schemes not in the modern key.

For example, in the hall illustrated a novel treatment has been given to

schemes. Another compromise is found in the pictures, which are neither period nor modern, but rather conventional scenes.

If the effect of this foyer as we see it in print seems to indicate a lack of life and color, it is because we fail to visualize the rich notes of the velvet upholstery, the lively green shades of the striped plants and the definite spots of color furnished by the pictures silhouetted against the plain white wall. It is a scheme that is capable of infinite variation in color and its separate elements can be adapted to many halls of different size and shape.

Answering Mrs. S.'s question about hangings for the living room, we must say that her choice depends altogether upon the type of her furniture, the colors of her Oriental rug and the upholstered pieces. She should be sure, by the way, that the rug is a good Oriental. If the budget does not allow for one of true artistic worth, it would be far better to use patterned carpet, with perhaps one small plain rug before the fireplace or the sofa, if the Oriental touch is desired.

Assuming, then, that a good Oriental is selected, the covering of the love seat or sofa should be relatively plain, repeating the color most prominent in the patterned rug. Or, if there are large areas of one color in the carpet, the sofa may repeat the second best color in the design, and the chairs should accent two of the other colors Mrs. S. likes best.

If the design of the rug is not too insistent and coverings of the upholstered pieces are relatively plain, then there may be patterned draperies, if Mrs. S. prefers them. In coloring and design they should be in harmony with the general feeling of her room. Either chintz or printed linen would be good materials, or she might use one of the lovely two-toned modern fabrics which are silky and semi-transparent, yet heavy enough to be used without over-curtains.

For the bedroom we would suggest a plain rug and patterned over-curtains; glass curtains to be of plain white in one of the pale tints found in the draperies. One good color scheme uses a soft dull green carpet, chintz having a pale peach ground and a floral pattern, glass curtains of peach-toned voile; another, a rich henna-colored carpet and pale green

the plain door frames. A modern idea, this—and one that is extremely effective. The delicate metal scroll with its corner medallions furnishes a charming pattern to soften and make interesting the harsh outline of the doorways, and at night, when the lights filter through the lace metal bands, most enchanting designs are cast upon the plain walls.

The wall space at either side of the door leading to the living room has been given a charming formal treatment that is distinctly modern, while the opposite wall holds a console and mirror which, although modern in feeling, are not obviously so, and consequently make good balancing pieces for the combination scheme. So with the chairs. They, too, are modern in design, but of the restrained type which makes them suitable for many non-modernistic

The Alarm Clock In Cooking

HAVE you ever considered what a really useful household article the alarm clock is? It need not merely be a reminder to get up, it can be used as a reminder of many duties in the home.

When you prepare a delicious dessert and place it in the oven to bake you hang a cloth on the oven door as a reminder, but you have duties to perform in another part of the house and your sense of smell gives you the danger signal. Your cloth on the door was of no use, but if you had set the alarm to the time the dessert was expected to be ready to remove and taken it with you, you would have received your signal in time to save the dessert from its disastrous fate.

With the alarm clock set you can bake and cook a dinner while you listen to the radio, talk, read or even take a nap and nothing will be burned or spoiled.

Keep the Milk in a Dark Place

SOME TIME ago investigators in the Department of Agriculture discovered that milk exposed to sunlight acquired a cardboard taste and it had a linseed odor. They placed milk in a cool, dark place and even after a week the milk showed no offensive odor or taste. After a thorough test these experts gave out the information that in order to prevent an odor and disagreeable taste milk should be carefully guarded against sunlight.

In their tests the milk acquired the undesirable state within a few hours. After milk reaches the kitchen it is usually placed in the refrigerator and is thus insured a cool, dark storage place, but it may have been standing on the steps in the direct rays of sunlight for several hours.

See that your milk is left in the coolest, shadiest spot available, especially if it is the baby's milk. If the place where the milk must be left faces the east a small box may be placed outside and the milkman requested to put the milk inside of this.

Oh, Go to Bed

"DAD, why am I an April Fool?"

"I suppose, son, because you allowed some one to fool you on All Fools' Day, or April Fool's Day. Who called you an April Fool?"

"Johnny Martin. He said, 'Oh, look at the baby elephant,' and when I turned to look he clapped his hands and cried, 'April Fool!'"

"Why, you were an April Fool. You should know better than to look for elephants in a city street."

"Aren't you an April Fool, dad?"

"No, no, no, me, son, I'm too clever to be taken in on April Fool's Day."

"Watch out, dad! Your cigarette ashes are making a hole in your vest. . . April Fool!"

"Oh, go to bed!"

No Complaints On Race Meet

SAN FRANCISCO, April 11.—(UP)—Tanforan "option system" betting seemed in no danger of running foul of the law, according to statements issued today by the San Mateo County District Attorney and the State Attorney General's office here.

District Attorney Franklin Swart of San Mateo county, stated that no complaint had been made against the Tanforan racing meet, and that no action would be initiated by his department.

"Certain San Francisco interests," said Swart, "have been persistent in attempting to dictate the policy of San Mateo county officials."

"Having failed in this they have resorted to every trick and device to stir up the public."

"So far, not a single individual has registered a complaint against the Tanforan races. The crowds have been large, orderly and well conducted."

NOVARRO SINGS IN NEW FILM

Ramon Novarro, dressed in the handsome uniform of lieutenant of Napoleon Bonaparte, making his escape from a firing squad, climbing into a beautiful young woman's bedroom; masquerading as a footman; duelling his way to fame and fortune... these are some of the sequences of "Devil May Care," Novarro's all talking screen romance which is to open tomorrow at the Fox California.

The new picture, adapted from the French play, "La Bataille des Dames," is said to be a perfect vehicle for the romantic Novarro. The story tells of the adventures of Armand, the exiled Napoleon's trusted lieutenant who schemes to bring back his liege to the throne of France. When he falls in love with Leonie, ardent Royalist, complications begin.

The supporting cast of "Devil May Care" includes Dorothy Jordan as Leonie, Marion Harris as Countess Louise, John Miljan as the villainous de Grignon; and others.

Novarro sings a variety of attractive musical numbers in the picture written by Herbert Stothart and Clifford Gray. Songs are also sung by Miss Harris, who is well known as a "blues" singer, and Miss Jordan, who was formerly in New York musical comedies. The musical numbers range from sentimental love songs such as "Charming," "I'll Care," and "The Shepherd's Serenade" to the comedy songs, "Pompadour," and "Bon Jour, Lucie," and the rollicking military number "March of the Old Guard," which Novarro sings with a large chorus.

On the same bill is a Fox all talking News and a Charley Chase comedy.

War Mothers' Voyage Will Start May 7

WASHINGTON, April 11—Under the direction of the War department, plans are being rapidly completed for the pilgrimage to Europe of American Gold Star mothers and widows of World War veterans buried overseas. The movement, which was sponsored by the American Legion, will get under way on May 7, when the S. S. America will sail for France carrying widows and mothers of the state of Nebraska. The priority of states was determined recently in advancing made by Mrs. Herbert Hoover. The Legion departments which will immediately follow Nebraska are Florida, Delaware, Kentucky, Ohio, Arkansas, Iowa, Montana, Porto Rico and Oklahoma.

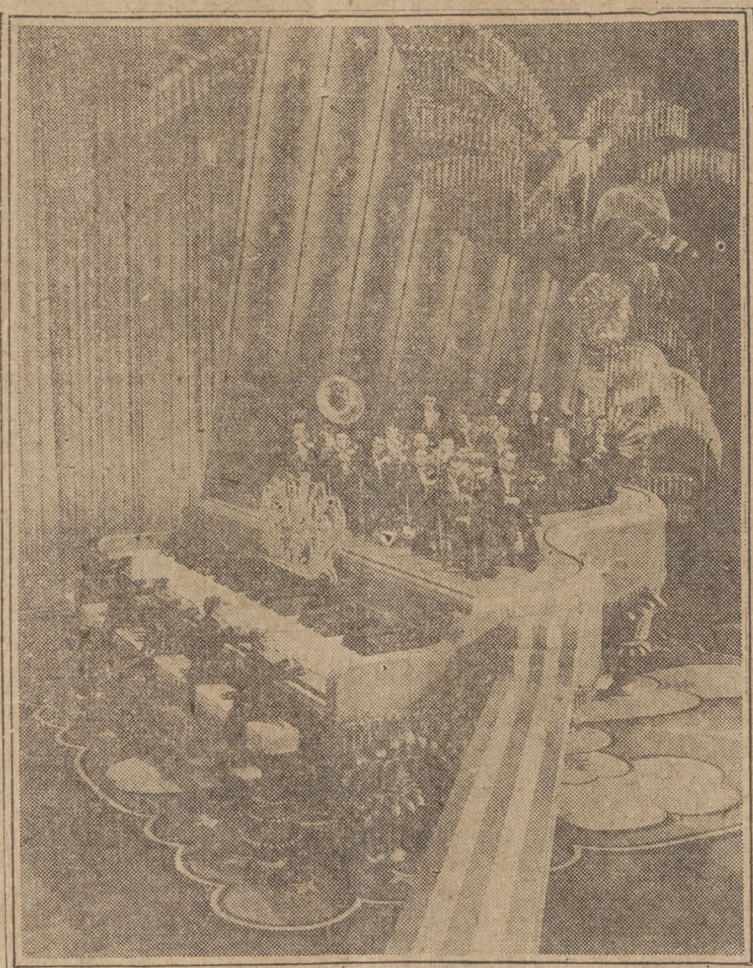

The plans have been worked out by the war department in such minute detail that each Gold Star mother or widow will be able to tell in advance almost to the hour, how and where her time is to be spent on the entire trip. All arrangements have been made by the government, and about the only thing those making the trip will have to do is to provide themselves with passports, and this procedure has been made as simple as possible. Transportation and expense money from their respective homes to New York will be sent in advance, and on arrival they will be met by army officers and escorted to first class hotels, where reservations have been made.

The stay in New York will be from 24 to 48 hours. At the proper time they will be escorted to the steamship on which their passage has been arranged and quartered in cabin class accommodations. The ocean voyage will last about eight days and when the ships dock at Cherbourg, France, each party will be met by officers especially detailed for the purpose and taken in a special train to Paris, where first class hotel quarters have been reserved.

The first day in Paris will be devoted to resting. On the second day the women of each party will place a wreath on the tomb of the French unknown soldier, and attend a reception in which French war mothers, government officials and prominent civilians will participate. On the third morning the groups going to the different cemeteries will leave Paris, traveling in motor buses, and proceed to the cemeteries, where they will remain for about seven days. Twenty-five women will be assigned to each bus and an army officer will have charge of the bus.

The itineraries to and from the cemeteries and the daily travels while at the cemeteries have been varied so as to take in points of historical interest as well as some parts of the battlefields where American troops were engaged. Upon return to Paris, each party will remain for about five days and during this time an opportunity will be given to see the points of historical interest in Paris and vicinity. The entire duration of the stay in Europe will be fourteen days. Except in the case of illness, or other unavoidable cause, it will not be possible for and woman making the trip to remain in Europe for a longer period than fourteen days, nor to leave the party with which she is traveling, unless she is prepared to pay all her expenses after leaving the party.

MARION DAVIES MAKES HIT IN TALKIE

They're packing them into the Fox-California theater these days and for good reason, Miss Marion Davies is headlining in as screamingly funny, a screen farce as has hit these parts in some time. "Not So Dumb" is the name of the all-talking comedy and it has the attributes of being adapted from "Dulcy," one of New York's biggest stage hits from the pen of George S. Kaufman and Marc Connelly, and of being directed by the foremost megaphone wielder in Hollywood today, namely, King Vidor.

And, as though this were not enough to insure a sure-fire hit, Metro Goldwyn Mayer has given Miss Davies a supporting cast containing Elliott Nugent, Raymond Hackett, Julia Faye, Sally Starr, George Davis, Franklin Pangborn, William Holden, Donald Ogden Stewart and Ruby Lafayette.

Woman Succumbs To Auto Hurts

Mrs. Kate Crain, 68 of Oakland, died Thursday from injuries sustained when struck by a car driven by Owen McDermott, 1602 Macdonald avenue, Richmond, according to police reports.

Police declare that McDermott was driving slowly at the time of the accident, which occurred on March 29, and that the woman walked directly into the path of the machine.

Local People To Visit Pardee Dam

School nurse says all girls should know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there is no harm in taking nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping."

BOY SCOUT PAID HONOR

Aubrey Wilson, chairman of Richmond district council of Boy Scouts, presented Chalmers Gidley with the Boy Scout Scroll of honor in recognition of his bravery and that of his sister Jean in saving the lives of two boys in San Pablo bay recently. The presentation was made at a meeting in the Hotel Carquinez of the Richmond Rotary club yesterday.

George N. Rooker was nominated as president of the club at the meeting yesterday, as the term of Frank Mero, president is drawing to a close.

Theodore Wittchen, attorney for the East Bay Municipal Water district was the speaker of the day, basing his talk on the water system. Dr. George C. Pardee, Grant Miller and H. A. Johnston, directors of the district; treasurer Daniel Reed, engineer Frank Hanna and Herman Mellman, local manager, were guests of honor.

Mr. and Mrs. Fred Penn, parents of the young Giant couple, and Robert Cox, Scout executive, were also guests of the club.

The "Knight's Ferry Band" composed of members of the club was a feature of the day, rendering several old time selections. The members of the band were all attired in clothes of '49 days.

Richmond Scouts To Exhibit Merit Badges April 19

The first merit badge exhibition for Richmond Boy Scouts will be held next Saturday night at the Roosevelt junior high school auditorium.

Each troop of the city is planning to display one or more merit badge subjects showing work accomplished to win the coveted emblem.

The exhibit will feature the vocational training afforded Scouts. The Crockett Scouts have entered exhibits.

Prior to the exhibit a parade will be held down Macdonald avenue, starting at 7 o'clock. The exhibit is to be opened at 7:45. There will be no admission charge.

Andrew Nelson Rites Monday

Funeral services for Andrew Nelson, 71, of Richmond who died at a San Francisco hospital yesterday, will be held from the Curry's funeral parlors here Monday afternoon. Interment will be in Sunset View cemetery.

Mrs. McCormick, Hoover Disagree

WASHINGTON, April 11.—UP—Ruth Hanna McCormick, Republican Senatorial nominee from Illinois, spent an hour with President Hoover this afternoon and then announced that she and the president had "agreed to disagree" over the question of United States participation in the World Court.

Her statement emphasized her disagreement with the president on the issue of the World Court, formal adherence to which Hoover plans to send to the Senate soon. The Illinois woman defeated the incumbent Republican Senator Deneen, who favors the Hoover plan of adherence, decisively Tuesday in that state's primary, with the court as the state's national issue.

"We didn't have any other differences," Mrs. McCormick hastened to add. "We agreed most amicably to disagree on the World Court."

Barber Guilty Of Murder, Assault

MOUNT VERNON, Wash., April 11.—UP—A jury today found John Phil Rickett, Anacortes barber, guilty of murder in the second degree and assault in the second degree for the slaying of Brother McMurtie of Bellingham and the wounding of her brother, Harold, in a quarrel Feb. 8. The shooting took place during an argument between Miss McMurtie and Mrs. Pickett over who owned the better dog.

Once Again— Let's Be Counted!

Once more, as a final plea, the Richmond Chamber of Commerce urges full cooperation in the census, now drawing to a close.

Ending April 16, the U. S. Government with the assistance of local authorities, will have carried out an enumeration of the population.

It is the duty of Richmond people to see that no Richmond person is overlooked. Only with the greatest help and co-operation can the great task be completed in the allotted time. Every man, woman and child not counted in Richmond will injure this city for the next ten years. The figures which appear in the government records following this census will be the official figures by which this city will be judged until 1940.

BE READY FOR THE ENUMERATORS.

Study the list of census questions which has already been placed in your hands and have the answers ready when the enumerator calls at your house.

Loyalty to Richmond will make the census a complete success here.

IT IS YOUR BUSINESS TO SEE THAT YOU ARE COUNTED*

RICHMOND HIGH SCHOOL NINE BEATS EMERYVILLE

FIVE HOMERS FEATURE GAME

The Richmond Union high school varsity baseball athletes continued their winning streak yesterday by defeating Emeryville High school seven to five on the new local high school diamond.

The batting eyes of both squads yesterday were exceptionally keen with the result that batting was the feature of the entire game. Richmond's swatters gained 17 hits while the visitors were garnering 16. Home runs were collected by Babich, Bono and Rosano of Richmond and by Benedetti and Senoff of Emeryville. Two base hits were made by Rosano and Transue.

Lemmon chucked nice ball for eight innings for the local squad, allowing 12 hits and fanning seven Emeryville sluggers. He was replaced in the eighth canto by Bono who held his own until almost the end of the ninth, when Babich took a dangerous situation in hand. Bono allowed four hits, and walked one. Babich succeeded in fanning the last Emeryville batter.

The infield and outfield of both squads were functioning exceptionally well in yesterday's hard fought clash. The smallness of the score was due in a large measure to the craftsmanship shown by the athletes of Richmond and Emeryville high school.

Since the end of the first round of Alameda County Athletic league competition, the local high school athletes have had a new lease on victory. As a result, there is still a possibility that they may be in on the final scramble for the title.

The Richmond boys will again see action April 22 on the local high school diamond, when they will meet the Hayward high school nine.

Yesterday's contest between Richmond and Emeryville was the first game to be played on the newly-completed Richmond Union high school diamond.

Junior Nine Beats Berkeley

The 115 pound baseball athletes of Roosevelt Junior high school handed the Garfield Junior high school nine of Berkeley a 7 to 6 defeat yesterday.

Tom Powe twirled for the winners, while Melvin Vedo did the receiving for the local squad.

George Flores is the coach of the Roosevelt 115 pound nine.

In a recent varsity contest, the varsity Taddies trounced the Garfield varsity 3 to 0 at Garfield. Banducci occupied the box for the local team, and Crocker held the position behind the plate for the winners.

LEGION JUNIOR LONGFELLOW BASEBALL LAUDED NETMEN BEAT GARFIELD

INDIANAPOLIS, Ind., April 11.—A lot of pep, increased interest and well laid plans for a banner season in the American Legion junior baseball are shown in the early start this program is receiving, as indicated by a national survey being conducted by the National American Legion Commission at national headquarters of the league here.

Twenty-three states have replied, at the time this is written, an estimated increased number of boys over last year, will participate.

Legion leaders request that all boys who will be 14 prior to September 15, 1930, and who wish to take part in the organized competition, get in touch at once with the nearest legion official, newspapers, church groups, industrial concerns, civic organizations and others, are sponsoring teams throughout the country.

A summary of the replies as received to date from department, or state athletic officers of the legion, who have charge of this activity in their respective departments, follows:

Wyoming — We are emphasizing the relationship between clean sportsmanship and good citizenship, said E. F. McCarroll, department athletic officer.

Nebraska — Ten teams already playing, and 125 is the estimate for this season.

New Hampshire — 1,500 boys will participate.

New Jersey — Fully 200 teams will be entered in this state.

Illinois — Will lead all other states, C. D. Merrill, state athletic officer promises, in telling how individual Legionnaires are getting behind the movement.

Kansas — We will have over 300 teams.

Iowa — Hope to do better than last year when 172 teams participated.

Michigan — Minimum will be 250 teams as against 193 last year.

Maryland — Organization is now well under way with committees holding regular meetings in directing enrollment of boys.

Wisconsin — Seventy-five towns, 6,000 boys.

Massachusetts — 100 to 150 teams will be organized this year.

Minnesota — Will be satisfied with no less than 400 teams.

South Dakota — Enrollment of 3,000 boys under way.

New Mexico — Public schools helping enroll 1,200 boys.

Washington — Many organizations cooperating. Will enroll over 6,000 boys.

Colorado — Sporting goods establishments will conduct leagues. 150 teams expected.

Florida — Class teams being reorganized in schools. 5,000 boys to be enrolled.

North Dakota — Hopes to have 150 teams or 2,100 boys good.

Tennessee — Estimated that 1,500 boys will participate.

Indiana — Competition is expected to attract 8,000 boys in the state.

Mississippi — This state will have 3,000 boys playing.

Montana — Enrollment is get-

HUSKIES WIN COUNTY TENNIS OVER U. C. CREWS MATCHES AT CROCKETT

SEATTLE, April 11. — (UP) — The Washington Huskies made a clean sweep of the regatta with California's Golden Bears on Lake Washington this afternoon, winning the freshman, junior varsity and varsity crew races.

The varsity race was a thriller, Washington cutting down a California lead in the last mile and the Husky prow being sent across the finish line three-quarters of a length ahead of the Bears.

The time was 17 minutes and 46 seconds.

Bears In Lead
California jumped into the lead in the first few strokes, but Washington settled down to a steady racing stroke and soon drew even with the Bear crew.

At the half-mile mark there was but a few inches difference between the two crews, which had dropped their stroke to 33.

Both crews were rowing in perfect form.

At the mile California had nosed 15 feet ahead.

Bending to their oars, the Huskies tried to overcome the slight California lead and began to draw up on the Golden Bears. California's lead was cut to a bare two feet, but the southern boys picked up until their shell was 20 feet ahead.

U. C. Leads.
Past the half-way mark, California swept, almost about length ahead. The Huskies increased the stroke, but it seemed almost in vain. They could not gain. Open water showed between the shells with the Bear boat pulling slowly ahead.

As they swung into the last mile Washington was rowing 32 strokes and California 34.

Just before they neared the sprint, the Huskies picked up to 33, then they started to sprint 3000 feet from the finish line.

Two thousand feet from the finish line, the Washington shell crept up. It was how to bow as the cowboys barked commands and pounded the sides of their shells. Washington appeared to draw ahead. Then they were even.

Then it was over. Washington was the winner by a bare three-quarters of a length, made possible by a herculean feat in the last few feet.

It was Washington's seventeenth victory in the annual dual regatta but the first victory for the Huskies in four years, the Bears having won the last three varsity races.

Three Wins.
The race climaxed a perfect day for Washington; the Husky freshmen previously beating the California Cubs by seven and one-half lengths and the junior varsity won by nine and one-quarter lengths.

The times: Varsity, 17:46; Juvvoo, 18:37; Fresh, 12:15.

Glorying in their victory, Washington looked forward to Poughkeepsie. A campaign to finance the trip probably will start immediately.

On the conclusion of the pep meeting, candy was presented to the 300 boys attending the affair. The league competition will start Monday. Contests will be played on El Cerrito, Santa Fe, and Richmond Union high school diamonds, and Elks Club at a banquet.

(UP)—With their fourth consecutive victory over Portland by a score of six to five, the Los Angeles Angels secured an advantage of two full games in leading the Pacific Coast league today.

The Beavers knocked Walsh out of the box with five runs in the first two innings, but were tied in the fifth and the Angels made one in the last of the ninth to win.

Oakland came from behind to beat Hollywood in an eleven inning game, nine to eight. The Oaks were trailing eight to two at the end of the fifth.

Seven runs scored after the fourth inning gave Seattle a nine to seven win over the San Francisco Seals and the San Francisco Missions evened the series with Sacramento by trouncing the Senators ten to three.

LOCAL HARBOR AIDED BY BILL

(Continued From Page 1)
ial action on the part of U. S. engineers. This project will complete the training wall.

In some sections of the harbor it will merely mean that the government will maintain the channel to a depth of 30 feet. Much of this section has already been dredged to a depth of 30 feet by the city although the previous government contract called for only a depth of 24 feet. When it was found that this depth was not sufficient to take care of vessels which wished to call here the channel was dredged to 30 feet by the city. Under this bill the government will maintain these channels at a depth of 30 feet.

The training wall when completed under the bill now under consideration will extend for a distance of 10,000 feet from Brooks Island to a point opposite the outer harbor wharf. Of this wall 3,000 feet have been completed. Bids were recently called for an additional 4,000 feet. When bids were submitted it was found that they were low enough to permit an extra 1,000 feet and 5,000 feet of the wall are now under construction.

Solves Problem
The present channel from the outer harbor wharf to Point Potrero is already 300 feet wide, so that the portion of the work pertaining to this part of the work will merely mean the maintaining of it at a 30 foot depth.

The channel between Point Potrero to Ellis Landing is of various widths and depths. The widths range from 325 to 375 feet. Under the new project this will all be dredged to a width of 475 feet and a uniform depth of 30 feet.

The turning basin is at present 600 by 800 feet. This will be extended to the full width of 800 by 300 feet as called for under the survey.

According to city officials and others conversant with conditions at the waterfront, if the bill recommended yesterday is passed and signed it will mean that Richmond's harbor problems will be solved for a good many years. It was pointed out that the channels and turning basin to be dredged and maintained under the provisions of the bill would amply supply Richmond with sufficient deep water for all its needs for some time to come.

Hitrun Suspect Freed On Bail

Hugh Oodhout, 662 Thirty-fourth street, charged with hit and run driving by Silvera Campena of El Cerrito, was released yesterday on bail of \$500. He will appear before Justice of the Peace Arthur Alstrom for preliminary hearing April 17.

In registering his complaint, Campena alleged that a car driven by Oodhout struck his machine at Forty-sixth street and Macdonald avenue April 7, and that Oodhout failed to stop and render aid.

Japanese Stock Market Reopens
TOKIO, April 11. — (UP)—The stock exchange here resumed business today after closing for business Friday because of the general business depression due to a walkout at the Kanagafuchi spinning mills. The uneasiness seemed to have disappeared and all prices, including the mill stock were slightly higher.

Woman Talks
"Nearly every morning I stop to watch the bus as it goes past and wave at the passengers," she said.

"I did it this morning. The bus drove to the crossing, slowed up and then lunged forward, just as the train reached the crossing."

"I was horrified. I shouted at the driver. He could not hear me. I started running toward the tracks."

Bodies Scattered
"Then it looked like the driven turned the bus to one side to try to miss the train. I saw a man in the engine cab grab for something. The brakes screeched and then a crash."

HOOVER SAYS NAVY MEET SUCCESS

(Continued from Page 1)

obtained reduction on the continent of Europe. The United States, he said, could not involve itself in such agreements.

New Conference

These achievements of the London conference, it was explained, are a prelude to the next conference to take place in 1936. Diversion of the billions to be saved by the London conference into productive enterprise is expected greatly to stimulate world prosperity.

Comparing the objectives of the Geneva conference and the achievements of the London conference, Hoover said the former would have produced a British navy of 1,500,000 tons, to which the United States would have had to build up if parity were to be attained.

The London conference aggregate tonnage level was established, roughly, at 1,136,000 tons, a reduction of about 364,000 tons for Great Britain and the United States, and proportionately for Japan.

The president praised the patience and determination of the American delegation and the constructive and courageous actions of delegations representing other governments. He said France and Italy had shown the utmost good will in supporting the conference project as far as they could, and joining in some of the important agreements.

To Scrap Ships.
Nine battleships are to be scrapped — five British, three American and one Japanese — and replacement of some 16 or 17 others is to be deferred six years. Reductions in some other categories will aggregate 300,000 to 400,000 tons as vessels become obsolete and are scrapped.

Hoover said it would be necessary to build in others. This is notably true of American cruisers. This battleship scrapping program will produce numerous Anglo-American parity at 15 ships each and Japan will have eight.

FIVE POWER PACT NOW BEING DRAFTED
LONDON, April 11. — (UP)—A five-power naval treaty limiting 60 per cent of the fleets of the world and leaving the way open for limiting of additional 25 per cent was in process of drafting tonight.

If all goes well, it will be in readiness for signature at a plenary meeting Thursday by the United States, Great Britain and Japan, France and Italy, enabling the Americans to sail for home April 22, after more than three months in London.

If there is some delay, the signing will be postponed until after Easter, probably on April 23. Two committees, one of jurists and the other of experts, began the drafting at the request of the American delegation heads this morning. Ambassador Dwight W. Morrow represents the United States on the jurist committee and Commander Harold C. Train and T. J. Mariner are ready on the experts' committee to give him any help.

Lewis Enters U. S. Prison

TACOMA, Wash., April 11. — UP — Nattily attired in a blue suit and in the best of spirits, C. S. Lewis, former president of the \$100,000, 000 Julian Petroleum corporation of Los Angeles, was checked in at McNeil Island penitentiary near here today.

Lewis, who came north in a special car with 15 other prisoners from California, began serving a seven to ten year sentence for using the mails to defraud in connection with the collapse of the "Julian Petroleum" corporation.

Lewis was assigned to the "fish gang"—the term used to designate new prisoners who work as common laborers about the penitentiary. He was checked in by Roy Olstead, notorious rum king of Seattle, who measured the prisoners for hat and shoe sizes.

The ex-head of the oil corporation was more than eager to chat with newspapermen.

MARTINEZ, April 11. — Suits against three property owners, asking judgment for paving works in front of their homes were filed here today by G. W. Cushing, a Richmond contractor.

Establishment of liens against the properties for the amount of the judgment was asked.

Defendants in the suits and the amounts of judgment asked are: Raymond Greedy, \$262; Morris Hoffman, \$150 and H. T. Richardson, \$135. Lee D. Windrem is the attorney for Cushing.

School Mates To Attend Funeral

Three Richmond men, Dr. Francis Kent, Dr. J. W. Bumgarner and Alonzo Bell, will serve as pallbearers at funeral services today for Severn Byreum who died in Bakersfield recently. Byreum was an old school mate of the three men. Bell and his wife left yesterday and Dr. Kent will fly to Bakersfield this morning.

RICHMOND FIRM TO INCREASE PRODUCTS

Officials of the Pan Pacific Piling and Construction company, which has a concrete pile plant on the Richmond inner harbor, revealed yesterday that the company is planning to enter the business of manufacturing concrete pipe under a patented process and enlarging the Richmond plant to take care of the new business.

According to the announcement, the company desires to obtain frontage on the inner harbor channel and has been negotiating with the Proctor and Gamble company to purchase part of its site there.

A patent on a method of impregnating concrete with creosote is held by the company, which was used in treating piles used in the Richmond inner harbor terminal. This, according to officials is the same treatment planned for the concrete pipe.

It is claimed that the creosote treated pipe is equal to vitrified pipe for sewers and other purposes where pipe must withstand the effect of acids. According to the announcement, the firm plans to enter into competition with the manufacturers of vitrified pipe.

The company has put in a bid to have its pipe specified as an alternate in the new Richmond sewer proposal, as a first step in its project.
